DISCOVER LOCAL DIVING

If your new to the area or visiting from out of the area and would like to experience our local diving, the discover local diving is a great way to experience some of Southern California outstanding conditions. We have some of the most unique diving conditions here. We dive off of our beaches and have to learn about entry and exit points, dealing with surf, diving with surge, and visibility ranging from 0 feet to 30+ at times. We also have our channel islands along our coastline which offers some great conditions. Diving in kelp is amazing, purple hydra corals, sea lion colonies, and many wrecks.
